

Lunar Sample Loan Program

- **Legacy of Apollo** – Small Lunar samples collected on the Moon are made available for the classroom , museums and science centers.
- **Sample Disks** - Six samples of rocks and regolith are embedded in a 15-cm dia. plastic disk.
- **How to Schedule:** Must be certified to borrow disks by attending a security training seminar.
- **POC:** Contact the NASA Educator Resource Center that serves your geographic area or JSC Education and Information Services Branch
